DIGITAL PRESENTATION

The NO PREP lesson slideshow in PowerPoint/Google Slides are carefully designed to provide detailed introductions or explanations and explicit examples of each subtopic. The slideshow presentation may include

real photos, group review, animations, editable slides, and fun facts!

LIVING AND NON-LIVING THINGS

What are **LIVING THINGS?**

© Little Patches Learning Club

LIVING THINGS ADAPT!

Some animals hibernate or sleep throughout the winter and wake up when

LIVING AND NON-LIVING THINGS

LIVING THINGS MOVE

MOVE

Fish, birds, and mammals all travel from one location to another in search of shelter, water, or food.

© Little Patches Learning Club

WHAT ARE LIVING THINGS?

LIVING THINGS

- ✓ breathe
- ✓ grow
- ✓ reproduce

© Little Patches Learning Club

WHAT ARE NON-LIVING THINGS?

Non-living things don't grow. They stay the same.

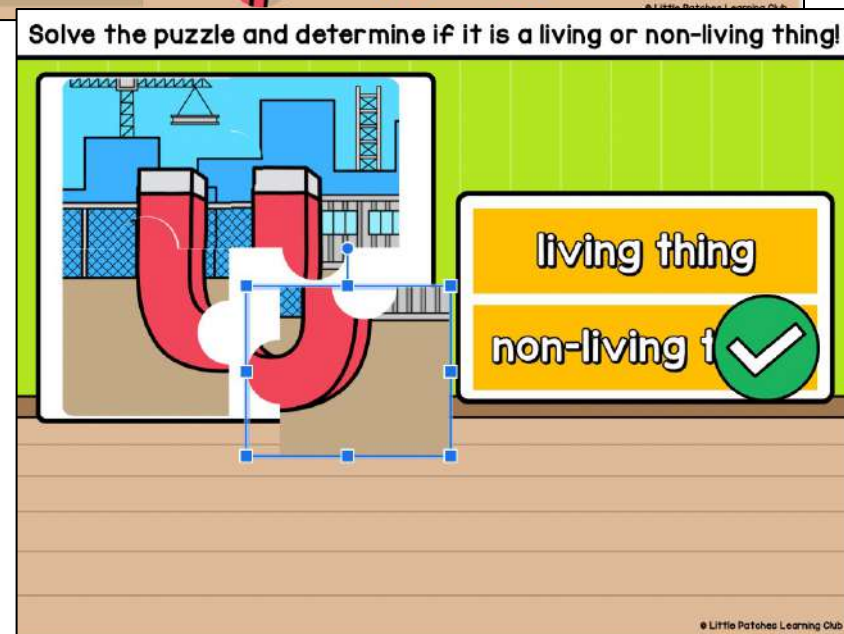

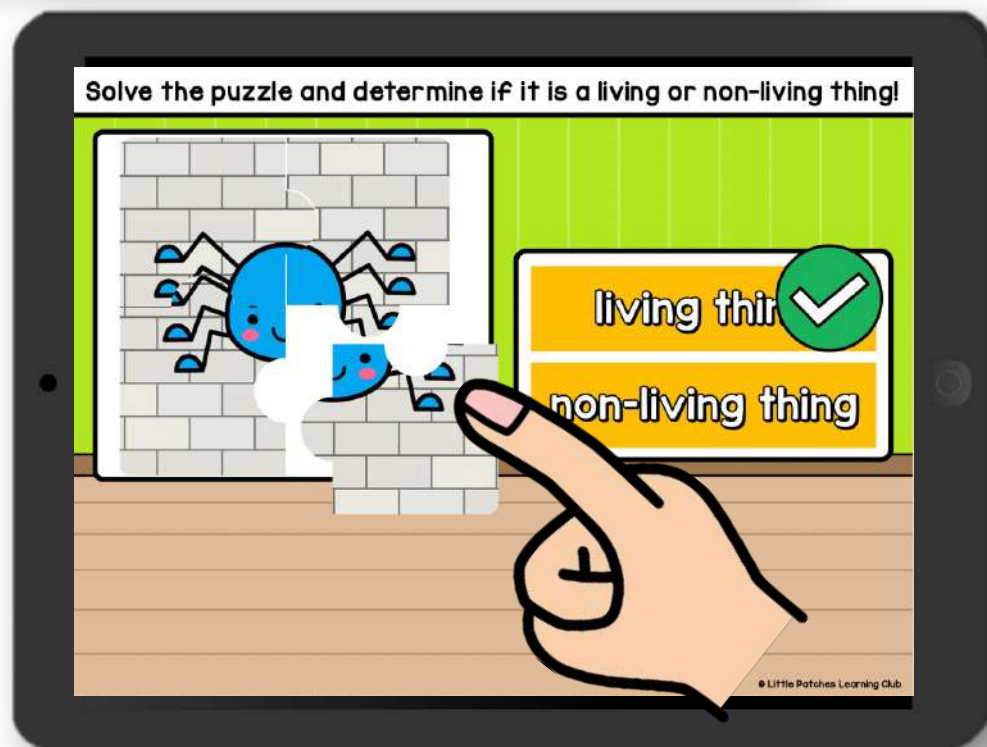

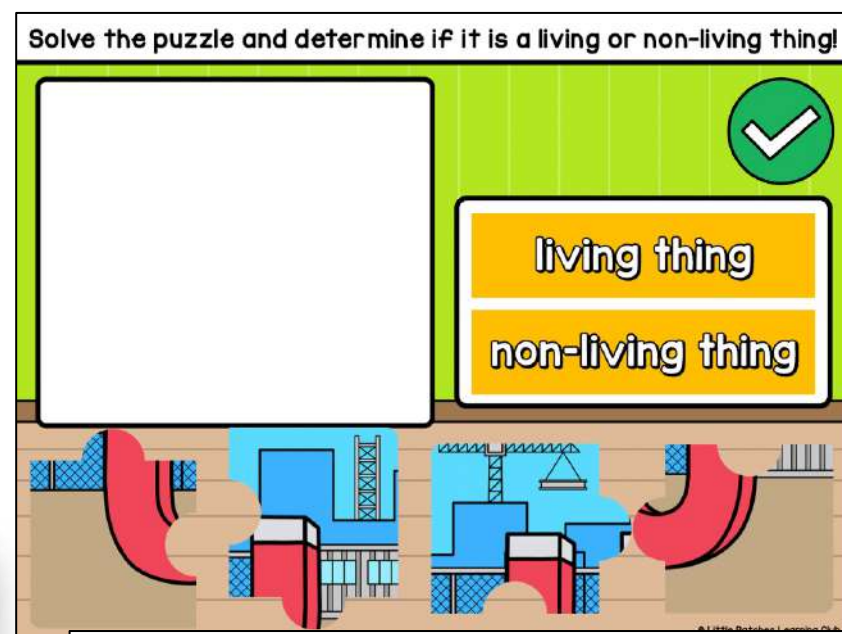

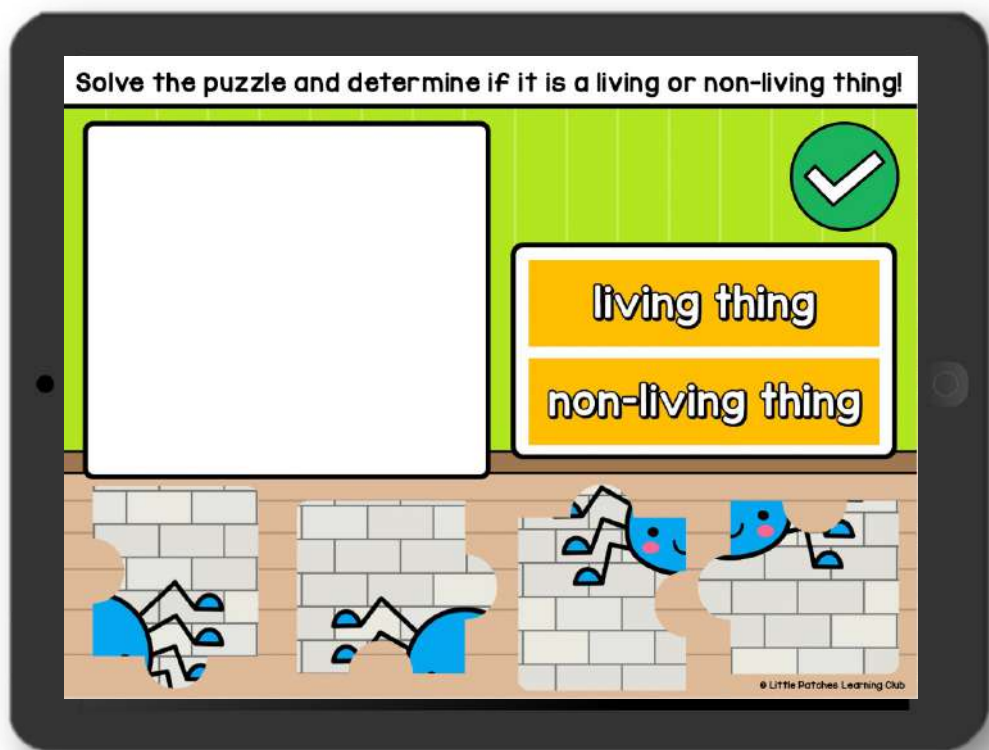

Some animals lay eggs. What animals lay eggs?

© Little Patches Learning Club

DIGITAL ACTIVITIES & GAMES

This unit includes supplemental digital activities in Google Slides.

The digital activities are designed to reinforce skill targets and are made to be interactive, enjoyable, and unique! Do them together in class or assign the activities for individual work/ take home work!

POSTERS & FLASHCARDS

The 11-page colored + BW posters and flashcards included in this unit may be used as:

- Anchor Charts
- Bulletin Boards
- Science Center Display
- Vocabulary Practice
- Classroom Décor
- Group & Individual Review

NON-LIVING THINGS

- ✗ breathe
- ✗ grow
- ✗ reproduce
- ✗ eat
- ✗ move
- ✗ adapt

Name: _____ Date: _____

Living or Non-Living

NON-LIVING THINGS

Cut and paste all the non-living things in the box.

NO PREP MINI BOOK

A one-page foldable mini book about living and non-living things is included in this unit to engage students in a creative way!

The mini book may be used for independent practice, homework, and many more! Easy-to-follow instructions are provided.

CENTERS & CENTER MATS

This unit contains a total of FIVE hands-on center activities to reinforce what students have learned from the whole group instruction.

An overview of each activity is included to help teachers prepare all the included activities.

Living & Non-living Centers Overview

Center 1: Scavenger Hunt

Nature Scavenger Hunt
Search for the items below! How many can you find?

			<input type="checkbox"/>
			<input type="checkbox"/>

Classroom Scavenger Hunt
Search for the items below! How many can you find?

			<input type="checkbox"/>
			<input type="checkbox"/>

Go on a nature and classroom walk and complete the scavenger hunt!

Center 2: Popsicle Sort

Prepare the popsicle cards and sort each card into the correct category.

Center 3: Picture Scene

Cut the pictures and complete the picture scene!

Center 4: Living/Non-living Checklist

Determine whether an item is a living or non-living thing by adding a check or ex on each box.

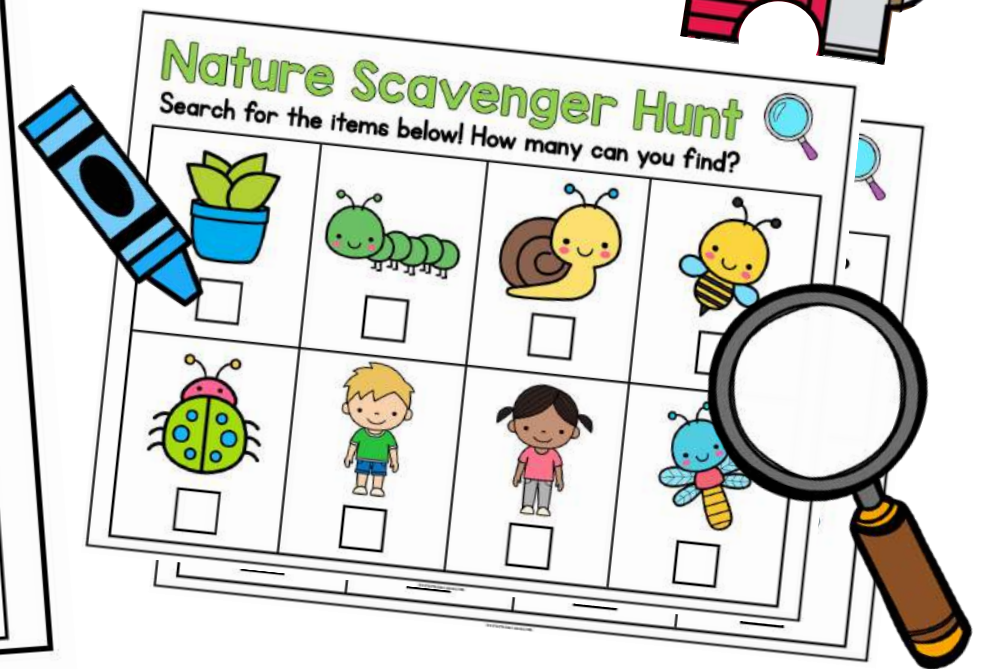

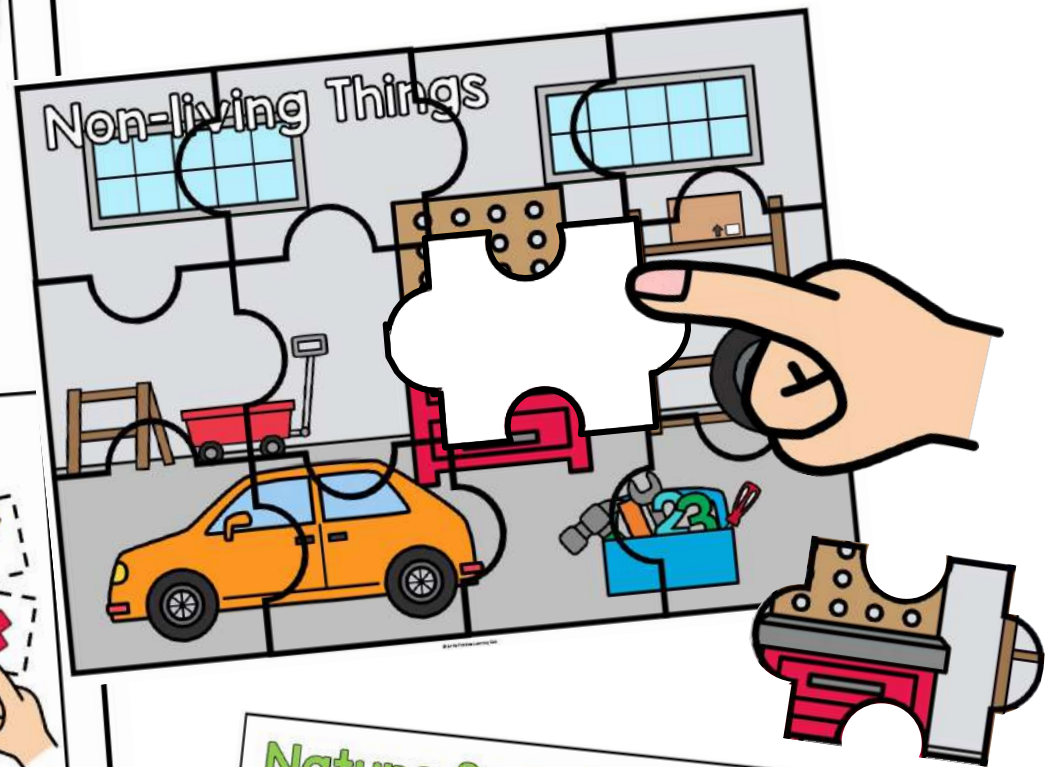

Name:	Date:	Name:	Date:

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Center 5: Jigsaw Puzzle Match

Complete the jigsaw puzzle scenes!

Non-living Things

Living Things

INVESTIGATION & EXPERIMENTS

This unit includes 6 pages of teacher guides and investigations (Fish vs Fish Cracker, Worm vs. Gummy Worm). Each investigation includes an overview, discussion questions, safety tips, materials, directions, and an answer sheet.

Living and Non-living

FISH vs. FISH CRACKER

Teacher Guide

Fish vs. Fish Cracker

Living and non-living things have special characteristics. Let's investigate the differences between a fish and a fish cracker. Which one is living?

Discussion Questions

1. Which one moves on its own?
2. Which one needs food and water?
3. Which one reproduces and multiplies?
4. Which one grows?
5. Which one needs air?
6. Which one is living and which one is non-living?

Name: _____ Date: _____

Living or Non-Living

Put X if the answer is NO and put ✓ if YES.

WORM INVESTIGATION

Gummy Worm

Draw the gummy worm.

- Does it move?
- Does it need food and water?
- Does it reproduce?
- Does it grow?
- Does it need air?

Put X if the answer is NO and put ✓ if YES.

FISH INVESTIGATION

Fish Cracker

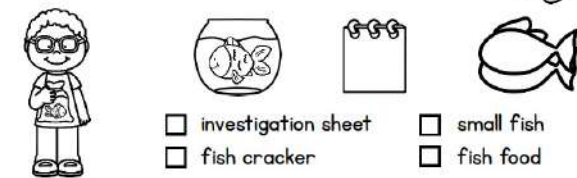

Real Fish

Living and Non-living

FISH vs. FISH CRACKER

Teacher Guide

Materials

- investigation sheet
- fish cracker
- small fish
- fish food

Directions

1. Prepare the fish and fish crackers or assign students to bring their own.
2. Place the small fish and fish crackers at the center of the table.
3. Observe the differences and similarities of the real fish and fish crackers.
4. Answer the investigation sheet.
5. Do this activity as a big group or divided group.

Draw the real fish.

- Does it move?
- Does it need food and water?
- Does it reproduce?
- Does it grow?
- Does it need air?

SCIENCE POEMS

This science unit contains an original science poem that focuses on living and non-living things.

Read them together in class or use them as classroom décor! Colored and BW versions are included.

Living Things

I look at the mirror
I grow taller, bigger, and stronger!
I love eating, dancing, and singing,
I am alive, I am a living thing!

Trees are dancing through the winds.
How lovely the birds are chirping in!
They sing and sing in the tree,
They are living things, like you and me!

Living things grow and change.
Babies turn to adults as they age.
Like flowers grow and bloom in spring,
We are alive, we are living things!

© Little Posh Learning Co.

ARTS & CRAFTS

Arts & crafts activities are provided for each unit.

The assigned crafts coincide with the topics included in the unit.

These crafts are designed to hone a myriad of core skills as well! Just follow

the simple directions and you'll be good to go!

ASSESSMENTS & EXIT TICKETS

Teachers may utilize the provided pre and post-assessment forms at the end of each unit. The 2 exit tickets (with answer keys) allow teachers to evaluate students' progress and knowledge about the given topic.
